Built tough. Built for your industry.

We understand the tough conditions you face every day and build reels that can stand up to the harsh, caustic environments associated with your business. Hannay Reels has engineered more custom hose reel solutions than any other manufacturer for pumper/cleaner applications. We respond to your industry's challenges with unique, innovative solutions – like our swivel base hose reel engineered exclusively for sewer cleaning.

Let us solve your reel issues with high quality, low maintenance reels built to your unique specs – so your crew can spend more time on their jobs and less time building equipment. Because at Hannay, we don't build our reels, we build yours.

Uses:

- Sewer, septic, portable toilet cleaning
- High pressure washdown
- Video pipeline and sewer inspection
- Steam cleaning
- Sanitizing
- Vacuum/suction
- Jetting
- Water blasting

Hannay Reels **Custom Department**

- Superior Design and Engineering • Handcrafted • Supreme Value
- Highest Quality Materials • Optimum Performance • Service with Integrity

Our custom department, located in a separate facility on our premises, is on the forefront of design capability, producing quality reels that meet the precise requirements of the many industries we serve.

When a specific handling problem requires a completely different type of reel, we have the design experience and manufacturing flexibility to work with you to develop the best reel for your needs.

Series 6000

- Washdown Operations • Tank Filling
- Water Blasting* • Sewer Cleaning*

To handle single 1/2" through 1" I.D. hose.

- Heavy-duty reel for longer lengths of hose.
- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Crank rewind reels supplied with pinion brake; power rewind reels with a strap brake.
- Standard inlet: 90° ball bearing swivel joint, 1" female NPT threads.
- Standard outlet: 1" female NPT threads.
- Standard inlet, outlet riser, and hub assembly are steel.
- Optional rollers are available.
- Standard pressures to 2000 psi (138 bar), available up to 5000 psi (345 bar) – must specify.
- Temperatures from -40° F to +400° F (-40° C to +204° C).
- Chain guard available upon request, must be specified.

* Extra heavy-duty construction is usually required for water blasting and sewer cleaning applications. Refer to our 6100 and 6200 series reels. See pages 6, 7 and 8.

Series HDD6200 | Hydraulic Direct Drive

• Water Blasting • Sewer Cleaning

To handle single 3/4" through 1" I.D. hose.

This reel is designed with external hose connection to allow tightening of hose connection without removing all hose from the spool. The optional hose guide arm along with the optional swivel base, allow precise payout of hose from the reel.

- Direct drive hydraulic motor (no chain and sprocket maintenance).
- 1" swivel joint with 1" FNPT threads.
- Heavy-duty spool and frame design.
- Steel hub assembly – rated to 3000 psi (207 bar).
- Other models and capacities are available upon request.

Options:

- Swinging guide arm with roller and operator handle.
- Rotating ball bearing swivel base.
- Heavy-duty pin lock in base for locking in multiple locations.
- 1" swivel joint with adjustable packing.
- Available up to 6000 psi (414 bar) – must specify.

Standard configuration shown with optional guide arm, pivot bearing, and TMI joint. Hose not included.

Series 8000

- Suction/Discharge (Consult Factory) • Bulk Transfer
- Chemical Transfer • General Dispensing

To handle single 1-1/2" or 2" I.D. hose.

- Heavy-duty reel designed for longer lengths and larger diameters of hose through 2" I.D.
- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Crank rewind reels supplied with a pinion brake; power rewind reels with a strap brake.
- Standard inlet: 90° ball bearing swivel joint, 2" female NPT threads.
- Standard outlet: flanged riser, 2" female NPT threads.
- Standard inlet, outlet riser, and hub assembly are steel.
- Rollers may be purchased as accessory items.
- Pressures to 600 psi (41 bar).
- Temperatures from -25°F to +180°F (-32°C to +82° C).
- Consult factory for other pressures and temperatures.
- Vacuum and suction applications require OPW joint with O-ring seal riser.

Electric Rewind

Power rewind shown

Series 9000

- Suction/Discharge (Consult Factory) • Bulk Transfer
- High Volume Application • Chemical Transfer

To handle 2" through 3" I.D. hose.

- Heavy-duty reel designed for longer lengths and larger diameters of hose through 3" I.D.
- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Crank rewind reels supplied with a pinion brake; power rewind reels with a strap brake.
- Standard inlet: 90° ball bearing swivel joint, 3" female NPT threads.
- Standard outlet: flanged riser, 3" female NPT threads.
- Standard, outlet riser, and hub assembly are aluminum with ductile inlet.
- Rollers may be purchased as accessory items.
- Pressures to 300 psi (21 bar).
- Temperatures from -50°F to +180°F (-45°C to +82° C).
- Consult factory for other pressures and temperatures.

Electric rewind
Standard configuration shown

Chain Clutch-Reduction Units

For use on reels with disc diameter 39" or larger and/or when increased torque and slower rewind speeds are required. Factory installed when specified or available as an accessory item.

Series **VAC-5000** | Single Wrap Reel

- **Vacuum/Suction**

To handle 2" through 4" I.D. hose

- Heavy-duty reel for longer lengths and large diameters of vacuum hose through 4".
- Choose gear driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Standard: 90° ball bearing swivel joint with female NPT threads.

Single Wrap Configuration:

Use where width dimension is minimal, such as between cab and tank, mounted transverse to frame of truck. Provides effortless and fast rewinding and wrapping of hose. Easy access to hose from both sides of vehicle.

Series **VAC-9000** | Multit-Wrap Reel

- Vacuum/Suction

To handle 2" through 4" I.D. hose

- Heavy-duty reel for longer lengths and large diameters of vacuum hose through 4".
- Choose gear driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Standard: 90° ball bearing swivel joint with female NPT threads.

Multi-Wrap Configuration:

Use where single wrap reels are too large in diameter, or cabinet/mounting space dictates a wider/lower configuration or dimensional requirements. Requires guiding of hose for optimal hose capacity. Also for installations requiring longer lengths of hose.

Notes:

- Specifications subject to change.
 - Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
 - When ordering power rewind models, prefix model number with:
A = Air Rewind – Supplied with control valve and 18" air hose.
EP = Electric Rewind (1/2 HP) – 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
HD = Hydraulic Rewind – Not supplied with control valve.
 - Clutch/reduction unit available upon request.
 - Finish:** Refer to page 27.
 - Be sure to check dimensions and weights prior to ordering.**
- NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.
- ***X, Y indicate mounting holes. See page 2.

Accessories

• Utility Hose Rollers • Hose Guides • Hose Stops

HG-15 hose guide for small frame models.

- Available for our 1500 and 1600 Series reels.
- Simple design to rewind hose evenly and neatly every time.
- No need to handle a dirty or contaminated hose.
- Powder coated bracket, stainless steel guide rods and nylon rollers assure long service life.
- Designed for aftermarket installation.

Hose Guide Kit – HGK-15 Hannay

Part No. 9956.2200

Kit includes HG-15 Hose Guide, handle grip, 2 stainless steel guide rods, 4 mounting blocks, steel mounting bracket set, and all mounting hardware.

Hose Guide – HG-15 Hannay

Part No. 9956.2000

Assembled black powder coated hose guide and handle grip. You must specify reel model when ordering.

Shown installed on 1500 Series Reel

Static Grounding Reels

- Rescue and HazMat Operations • Aircraft Refueling
- Chemical Plants • Grain Elevators

WARNING

These reels are for static grounding ONLY.
NOT intended for lightning protection!

For refueling or hazardous areas.

- These reels bond and/or ground aircraft, fuel trucks, and other equipment.
- Provide smooth operation and require minimum cable pull.
- Declutching arbor and adjustable guide arm with cable guide.
- Optional stainless steel construction of spool, frame, and ratchet system available on HGR Series.
- Standard finish is oven-cured enamel.
- Also available, manual rewind version. All shown with optional cable and/or "Y" branch.

Hannay Reels Sales Policies

Hannay Reels 3-Year Limited Warranty

Products manufactured by Hannay Reels, Inc. ("Hannay") are warranted for 3 years from date of shipment when properly installed, maintained, and operated in accordance with Hannay instructions. In no event will Hannay have a warranty obligation for normal wear and tear, or for products that have, at Hannay's determination, been subjected to accident, abuse, misapplication, improper installation or improper maintenance. Common examples of normal wear and tear would include paint finish, swivel joint seal wear, and switch or motor brush wear.

Hannay makes no warranties, express or implied, other than those included in this warranty statement, and we disclaim any implied warrant of merchantability or fitness for any particular purpose. Hannay will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever.

Failure to use a flexible inlet connection on any live hose reel will void the swivel joint warranty. Failure to use a properly sized circuit breaker with any electric rewind motor will void the electric motor warranty. Failure to use a filter and lubricator on any air rewind motor will void the air motor warranty. Failure to follow all procedures outlined in the Safety Guidelines document will void the warranty.

Components not manufactured by Hannay will be subject to the original manufacturers' warranties. Examples of such components include: hose and cable, motors, speed controls, and switches, swivel joints and seals, slip ring and brush assemblies.

Equipment which proves to be defective upon our inspection will be replaced free of charge, including freight to the customer. Our responsibility ceases upon delivery to any common carrier and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. **No material will be accepted for return without a return goods authorization (RGA).** This warranty extends to the replacement or repair of the reel or part (no labor).

Hannay reserves the right to modify or alter materials, dimensions, design, and construction when necessary to improve the performance of the reel and/or accessories, or to meet delivery requirements.

Notice on Reel Finish

Standard finish on Hannay reels is a high performance modified acrylic enamel paint. Standard color is metallic graphite. Other colors available at no additional cost include red, white, black, and primer.

Most of the major components on standard reels are e-coated prior to receiving final topcoat paint finish. This combination of e-coat and enamel topcoat will meet the finish requirements of most customer applications and environments.

In cases where requirements cannot be met with the standard finish, Hannay Reels can coat any model reel with an automotive primer, allowing application of final coating at your facility. Alternatively, Hannay Reels can provide a quote for matching a customer-provided paint specification. For further information, please contact your Hannay Reels sales engineer and a special paint request form will be sent to you.

For environments where no paint finish is suitable, we offer both aluminum and stainless steel (304 grade) construction on most reel models.

Return Goods Policy

All Hannay reels are built to order. These orders are typically placed into production within 1 business day of receipt. Once production begins, it may not be possible to cancel the order.

To prevent returns because the wrong reels or parts were ordered, please use the Hannay Reels Spec Worksheet (either online or from our Order Accessory Guide) when specifying reels. Be sure to include any size, weight, pressure and/or material compatibility limitations for the application.

In the event that an item does need to be returned for credit, repair or replacement, prior approval must be obtained from Hannay Reels. Upon your request, we will send a Return Goods

Authorization (RGA) form. A signed copy of this form must accompany the material when returned to us, with the RGA number clearly showing on the outside of the box—a label is provided to you that you can print and attach. No product will be accepted for return or credit without an authorized RGA number.

All material must be returned prepaid, unless otherwise noted on our RGA. No return will be accepted that has been damaged due to improper return packaging, tampered with or altered from its original condition. Our restocking and handling fee is a minimum of 25% for standard catalog reels and parts. Custom reels specially built to customer specifications cannot be returned for any reason.

You Can't Buy A Better Reel.
